

# SECOND PROPHECY

## ↓ ANGELIC NAME GENERATOR ↓

To create your angelic name, all you need are your initials and the numeric form of your birthday (day/month). Convert each of the initials of your real name (first and last) to their numeric values by using the chart on the left. To convert the month of your birthday to its numeric value you can use the chart on the right.

1) Add the numeric value of your first initial (1-26) to the day you were born (1-31) and consult the chart below for the first part of your angelic name:

Δ-1	2 · Abir [Knight]	16 · Lachan [Melody]	30 · Sela [Rock/Stone]	44 · Varda [Rose]

2) Add the numeric value of your last initial (1-26) to the month of your birth (1-12) and consult the chart below for the second part of your angelic name:

2 · dor [Generations]	11 · etgar [Challenge]	20 · govah [all High]	29 · yasha [Deliverance]
3 · or [Light]	12 · gil [Happiness]	21 · shai [Gift]	30 · betach [Assurance]
4 · raz [Secret]	13 · hod [Majestic]	22 · yam [Sea]	31 · amets [Brave(ry)]
5 · noy [Beauty]	14 · koren [Shining]	23 · gad [Fortune/Luck]	32 · az [Fierce(ness)]
6 · ron [Singing/Song]	15 · machol [Dancing]	24 · esh [Fire]	33 · maher [Quick(ly)]
7 · anog [Gentle]	16 · maor [Lightning]	25 · mazal [Destiny]	34 · raam [Thunder]
8 · chen [Grace(fullness)]	17 · marom [Heaven]	26 · bar [Purity]	35 · berur [Clarity]
9 · chai [Living]	18 · gaash [Storm/Rage]	27 · ziv [Brilliance]	36 · amet [Truth]
10 · atziyl [Noble]	19 · on [Strength]	28 · reut [Friendship]	37 · kach [Might]
			38 · sohar [Moon/Lunar]

3) Insert the first vowel of your name (a, e, i, o, u) between the two angelic names that you've chosen, separated by apostrophes or hyphens if you like. This stands for the word 'of' or another small connector word to bring the two names together.

Pronunciation of your angelic name does not have to be literal, eg., Naor [Enlightened] + 'e' + yam [Sea] = Naoreyam, but instead of pronouncing it as 'Elightened Sea' it would sound better as *Sea of Enlightenment*. You can also switch your initials for the first and second steps of this process to get a different result.

**Double name:** Some of you may get a double name, such as Noam [Grace] and chen [Grace(fullness)]. Since this would be kind of rare (and a bit boring), add 'El' [of God] at end of name and add 'Most' at the beginning of the English translation: Noam-a-chen becomes NoamacheneL, *Most Graceful of God*.

4) For a bit more flare, take the last digit of the year you were born and add the corresponding title to part of your name:

0 · ne'eman [Faithful]	1 · ot [Omen]	2 · bachar [Chosen One/Elect]	3 · batach [Trusted]	4 · barak [Blessed]
5 · yasar [Upright]	6 · moed [Appointed]	7 · olam [Eternal]	8 · tzadiyk [Righteous]	9 · attiq [Ancient]
